

| Report | Report Page | SQL Table | Change Type | Description |
|--------------------|------------------------------------|--|-------------|---|
| All | All | N/A | Enhancement | Updated compatibility on all reports to Power BI's February 2018 release. |
| Core | N/A | CostCode, CostCodeList | Feature | Added new data integration for company level "costcode" and "costodelist" datasets. Initial release is for SQL Server App for Procure. |
| Financials | PC CO Insights | | Enhancement | Added vertical dividers between "CO Requests", "CO Potentials", and "CO Packages". Changed scatter chart for "CO Packages" to be based on change order amounts instead of contract amounts. Fixed alignment in several places. |
| | N/A | ChangeEvent, ChangeEvent Lineltem, ChangeEvent RFQ, ChangeEvent RFQQuote | Feature | Implemented new data integration for change events, change event line items, change event RFQ's, and change event RFQ Quotes. Initial release is for SQL Server App for Procure. |
| Financials Budget | Budget Insights and Budget Details | | Enhancement | <p>Changed "Budget Insights" and "Budget Details" reports to be based on the "Procure Standard Budget" configurable budget view. Also modified layout of fields rendered in section and added a committed cost visualization.</p> <p>**Please note, Procure is deprecating their "List Budget Line Item" (https://developers.procure.com/notifications/10) API and will only support configurable budgets after March 14, 2018. The CBI table named "BudgetLineltem" will no longer be refreshed and it will be removed from all reports and the database as of May 2018. All budget related reports should use the "BudgetView" and "BudgetViewDetail" tables.</p> <p>Since configurable budgets are unique to each client, a custom report would need to be built for any customer specific budget views.</p> |
| Project Management | Project Status Report | | Enhancement | <p>Changed "Project Status Report" "Financial Details" section to be based on the "Procure Standard Budget" configurable budget view. Also modified layout of fields rendered in section and added visualizations for "Budget vs Committed Costs" and "% Committed By Division".</p> <p>**Please note, Procure is deprecating their "List Budget Line Item" (https://developers.procure.com/notifications/10) API and will only support configurable budgets after March 14, 2018. The CBI table named "BudgetLineltem" will no longer be refreshed and it will be removed from all reports and the database as of May 2018. All budget related reports should use the "BudgetView" and "BudgetViewDetail" tables.</p> <p>Since configurable budgets are unique to each client, a custom report would need to be built for any customer specific budget views.</p> |
| | RFIs | | Enhancement | Added URL to table to allow for clickthrough to Procure. |
| | Submittals | | Enhancement | Added URL to table to allow for clickthrough to Procure. |
| Quality & Safety | Observations | | Enhancement | Added URL to table to allow for clickthrough to Procure. |
| | Inspection Quality Inspections | | Feature | Added new report to show inspection quality with drill down by Office, Template, Section, Name |
| | Inspections | | Enhancement | Added URL to table to allow for clickthrough to Procure. |
| | Inspections | Checklisttem Observation | Bug Fix | Changed data type of "number" column in "ChecklisttemObservation" table from integer to text. This was impacting a very small number of records that have text in the "number" field. |
| | DL – Manpower | | Enhancement | Added chart for "Hours By Contractor". |
