Report / Area	Report Page	SQL Table	Change Type	Description
N/A	N/A	DailyLogCount	Deprecation Notice	Table "DailyLogCount" will be removed in the March 2019 release. This table has never been in use and clients should not be referring to it.
	N/A	Various	Upcoming data type change	The following tables will have their "origin_id" columns changed to nvarchar(200) from integer in the March 2019 release: BudgetModification, ChangeOrderPotentialLineItem, ChangeOrderRequest, PrimeContract, PurchaseOrderContractChangeOrderPackage, PurchaseOrderContractLineItem, TimecardEntry, WorkOrderContract, and WorkOrderContractLineItem. This is a potentially breaking change if you have reports configured that expect the "origin_id" column to be an integer.
	N/A	DrawRequest	Deprecation Notice	Columns "contract_type" and "contract_title" in table "DrawRequest" will no longer be supported in the DrawRequest table due to changes in the Procure API. To get these fields, use a relationship between column "contract_id" in DrawRequest to the "id" fields in "PurchaseOrderContract" and "WorkOrderContract" tables. This change is effective immediately . Columns "contract_type" and "contract_title" in the DrawRequest table will be removed in the May 2019 release.
	N/A	PhotoCategory	Deprecation Notice	Table "PhotoCategories" will be removed in the May 2019 release. This table has not been in use. The photo category on a given image is found as the "image_category_name" field in the "Photo" table.
	N/A	ChecklistItemObservation	Deprecation Notice	Column "int" will be deprecated in the May 2019 release. This column was incorrectly in the data model and has been replaced with the "id" column.
All	All	N/A	Enhancement	Updated all files to use modern visual header with updated styling options. This is a new Power BI default.
	All	N/A	Enhancement	Upgraded Power BI compatibility to Microsoft's February 2019 release.
Core	Company Vendor Insurance Compliance	N/A	Feature	New report which calculates compliance percentages for company directory level insurance based off of inputted expected values.
Financials	Financial Insights	N/A	Enhancement	Visuals "New Prime Contracts," "Owner Invoices" and "Invoices" set to display previous 12 months now. Graph "Invoices" retitled "Subcontractor Invoices (last 12 months)." KPI "New Prime Contracts vs. Goal" retitled "New Prime Contracts"
	Financial Tool Utilization	N/A	Enhancement	Visual "Financial Tools" switched to display total financial record counts rather than individual financial record counts.
	Prime Contract Payments vs. Value	N/A	Enhancement	Scatter chart "Total Payments vs. Contract Value" retitled "Total Owner Payments vs. Prime Contract Value."
	Commitment Purchase Order Contracts	N/A	Bug Fix	Removed a filter on table "Purchase Order Contract Summary" which caused only Purchase Orders with a Prime Contract to display.
	Commitment Payments Issued	N/A	Bug Fix	Graph "PO Payments by Date (Last 12 Months)" fixed so that it sorts by year and month. Retitled page "Commitment Payments Issued."
Financials Budget	Budget Insights	N/A	Enhancement	Added column "Sub Job" to matrix "Budget Summary." Added slicer "Sub Job."
	Budget Detail	N/A	Enhancement	Added column "Sub Job" to table "Budget Line Item Summary."
	Budget Snapshot Insights	N/A	Enhancement	Added slicer "Sub Job."
	Budget Snapshots Over Time	N/A	Enhancement	Added slicer "Sub Job."
	Budget Modifications	N/A	Enhancement	Added slicer "Sub Job."
	Budget Modifications	N/A	Bug Fix	Fixed an issue causing graph "Transfers By Date" to not sort properly.
	Cost vs. Schedule	N/A	Enhancement	Added slicer "Sub Job."

Report	Report Page	SQL Table	Change Type	Description
Project Management	Project Insights	N/A	Bug Fix	Fixed a bug causing "Schedule Status Drillthrough" to be blank. Fixed a bug that caused "Avg Days to Close" to not sort by proper monthly order.
	Project Scorecard	N/A	Enhancement	Added new color scheme and calculation on "Project Health". Project health will no longer be calculated on tools that are not being used, those tools will appear in black. Added legend to report.
	N/A	SubJob	Feature	New SQL table that stores a project's Sub Job configuration data.
Quality & Safety	Incidents Injuries	Incident IncidentDistributionMember IncidentInjury IncidentInjuryAffliction	Preview Feature	New report for incidents and injuries. This feature is being released as a preview, pending additional API support. If you would like to have this enabled for your company, contact support@constructionbi.com.
	Inspection Insights	N/A	Enhancement	Added slicer "Inspection Type." Added Inspection Type to hierarchy on "Inspection Attributes", "Aging", and "% Passing By Contractor" visuals
	Inspection Quality	N/A	Enhancement	Added slicer "Inspection Type." Added Inspection Type to hierarchy on "Inspection Quality" and "Inspection Item Detail" visuals.
