

Report / Area	Report Page	SQL Table	Change Type	Description
N/A	N/A	DrawRequest	Deprecation Notice	CBI previously posted a deprecation notice related to the "contract_type" and "contract_title" columns. We have been able to work with Procore and maintain these columns. That prior notice can be disregarded.
	N/A	PhotoCategory	Deprecation Notice	Table "PhotoCategories" will be removed in the <b>May 2019</b> release. This table has not been in use. The photo category on a given image is found as the "image_category_name" field in the "Photo" table.
	N/A	ChecklistItemObservation	Deprecation Notice	Column "int" will be deprecated in the <b>May 2019</b> release. This column was incorrectly in the data model and has been replaced with the "id" column.
	N/A	TimeSheet TimeSheetTimecardEntry	Deprecation Notice	The SQL tables "Timesheet" and "TimeSheetTimecardEntry" will be removed from the database in the May 2019 release. These tables were apart of the Preview support for the new Field Productivity reports. Functionality captured in these tables has been incorporated into the "TimeCardEntry" table.
All	All	N/A	Enhancement	Upgraded Power BI compatibility to Power BI's April 2019 release.
	All	N/A	Bug Fix	Fixed an issue causing an overlapping of visuals in Power BI Service.
Core	Companies	N/A	Enhancement	Added slicer "Missing Address?"
	Users	N/A	Enhancement	Added slicer "Missing Company?"
	Company Permission Matrix	N/A	Enhancement	Added slicer "Missing Template?"
	Project Permission Matrix	N/A	Enhancement	Added slicer "Missing Template?"
	Maps	N/A	Enhancement	Merged pages "Map View by Client" and "Map View by User." Retitled page "Maps." Added map functionality for Project Type, Office, Program, and Region. New cards "PC Grand Total," "Project Types," "Offices," "Programs" and "Regions."
Field Productivity	Various	N/A	Preview Feature	CBI is currently in Preview with a suite of new Field Productivity reports. If you are using these Procore tools and would like to have these reports enabled, please email us at support@constructionbi.com
Financials Budget	All	N/A	Enhancement	Added Project Department as a global filter.
Financials	All	N/A	Enhancement	Added Project Department as a global filter.
	PC CO Insights	N/A	Bug Fix	"CO Requests By Amount" visual now pulling Request Amount from the correct field.
	N/A	DrawRequest	Enhancement	Added columns "summary_total_tax1," "created_at," "updated_at," "origin_id," "origin_data," "summary_positive_change_order_item_total," "summary_negative_change_order_item_total," "summary_positive_new_change_order_item_total," "summary_negative_new_change_order_item_total," "summary_positive_previous_change_order_item_total," "summary_negative_previous_change_order_item_total," "summary_formatted_period" and "summary_formatted_billing_date." This table is related to subcontractor invoices.
