Quality & Safety	All	N/A	Enhancement	Split Quality and Safety report into Quality and Safety and Daily Logs. This was required to reduce the total number of data connections in a single Power BI report.  Please note that you will need to configure the refresh settings on the new report. Please contact <a href="mailto:support@constructionbi.com">support@constructionbi.com</a> for any questions on this. Also, if you had any dashboards with pinned visuals from any daily log reports, those will need to be recreated in the Power BI service. These reports and tables are no longer a preview feature and are now fully supported.
